The South Baltimore Gateway Community
Impact District Management Authority

Report on the Financial Statements

We have audited the accompanying financial statements of the South Baltimore Gateway Community Impact District Management Authority (the Partnership), as of and for the year ended June 30, 2020, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements

The Partnership’s management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Partnership’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Partnership’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.
We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the balance sheet of the Partnership as of June 30, 2020, and the respective change in its fund balance for the year ended June 30, 2020, in accordance with accounting principles generally accepted in the United States of America.

**Other Matters**

**Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Overview of the Financial Statements and Financial Analysis

The following is a discussion and analysis of the financial performance of the South Baltimore Gateway Community Impact District Management Authority dba the South Baltimore Gateway Partnership (the Partnership) for the fiscal year ended June 30, 2020 with 2019 for comparative purposes. The financial statements and accompanying notes should be read in conjunction with this discussion.

2020 Financial Highlights

- The Partnership’s total fund balance increased $882,302, as revenue exceeded expenditures. This was due in part to the fact that some Partnership projects take more than one fiscal year to complete. In addition, the onset of the COVID-19 pandemic created uncertainty related to the economy and future revenues, which caused the Partnership Board to take the conservative step of setting aside funds for future programs and operations.
- The pace of program expenditures continued to increase significantly in fiscal year 2020, with total expenditures increasing by nearly 50 percent in comparison to fiscal year 2019.
- 100 percent of the Partnership’s fund balance is assigned to programs or otherwise committed.
- The assets of the Partnership exceeded its liabilities at the close of the most recent fiscal year by $10,710,494 (fund balance). Of this amount, $9,810,494 represents assigned fund balance and $900,000 represents committed fund balance, while $0 represents unassigned fund balance.

Balance Sheet

Fund balance over time, may serve as a useful indicator of a government’s financial position. In the case of the Partnership, assets exceeded liabilities by $10,710,494 at the close of the most recent fiscal year.

In fiscal year 2020, the Partnership programmed and began to expend its fiscal year 2020 funds as well as continued to expend programmed but unspent funds from prior fiscal years, with the pace of program implementation and expenditures continuing to increase significantly as the year went on. While assets increased by more than liabilities in fiscal year 2020, approximately 97 percent of those assets were assigned to projects or otherwise committed (see Balance Sheet below) and so can be expected to be expended as those projects are implemented.
During fiscal year 2020, the timelines for project completions varied considerably across the organization’s program areas due to the variable nature of the projects being undertaken. While some of the Partnership’s projects (such as many Enhanced Services) take less than one fiscal year to complete, others do not. Community Grants, for example, generally take a year or more for grantees to execute. Similarly, large investments in complex Transformational Projects take long periods of time and fiduciary analysis to responsibly prepare and execute. Therefore, not all funds assigned in a given fiscal year are likely to be spent within that year, resulting in an inevitable increase in Fund Balance during the initial years of the organization.

Furthermore, the sudden onset of the COVID-19 pandemic had significant implications for the Partnership’s programs and financial plans. First, many of the core projects that the Partnership would typically fund (such as youth sports, cultural events in parks across the District, community gatherings, and others) became impossible to operate safely, and much of these funds were diverted to provide COVID-19 response aid to neighborhoods. At the same time, Governor Hogan’s decision to close all Maryland casinos on March 15, 2020 brought the Partnership’s revenue stream to a temporary but abrupt end. Although Governor Hogan has gradually eased restrictions and the central Maryland casinos reopened in late June 2020, they did so with capacity restrictions. Furthermore, it is not clear whether the casinos will be able to remain open indefinitely and if so with what capacity limitations; whether funding will be substantially restored given the potential impact of public health concerns and capacity limitations on casino revenues; and how long it will be until the casinos can reopen permanently and at full capacity. As a result, the Partnership had to think strategically about how to respond to the pandemic while also preserving organizational capacity and core priorities. Therefore, the Partnership revised its fiscal year 2020 budget and developed a conservative financial plan into fiscal year 2021, assuming no substantial new revenue for the foreseeable future. Consequently, the Partnership maintained a significant fund balance to preserve its financial position and capacity to operate and implement programs.
Management’s Discussion and Analysis

Statement of Revenue, Expenditures and Change in Fund Balance

The Statement of Revenue, Expenditures and Change in Fund Balance presents the year ended June 30, 2020 revenue and expenditures, and their effect on fund balance. Revenue consists primarily of intergovernmental revenue. Expenditures consist of program and administrative activity.

</tbody>
</table>

Revenue decreased by $1,859,037, in comparison to fiscal year 2019, which was attributable primarily to decreased Local Impact Grant funding due to the onset of the COVID-19 pandemic, temporary closure of the Maryland casinos and interruption of the Partnership’s funding. In addition, the Partnership continued to earn interest on the value of its deposit accounts and received some pass-through funding from the City of Baltimore.

Expenditures increased by $1,438,374, or nearly 50 percent, in comparison to fiscal year 2019. Accelerating program expenditures were due to a third full year of operations during fiscal year 2020 and continuing to build internal infrastructure, including hiring for two new permanent, full-time staff positions. Program implementation and expenditures continued to increase significantly in fiscal year 2020 as a result.

Although revenue decreased and expenditures increased in fiscal year 2020, revenue exceeded expenditures due to the Partnership’s conservative post-pandemic financial planning and cautious spending combined with the fact that some Partnership projects take more than one fiscal year to complete.
Economic Outlook

The State law authorizing the City to establish the Partnership specifies that, starting in Fiscal Year 2018, the Partnership shall receive not less than 50% of the Local Impact Grants from video lottery proceeds designated for Baltimore City. Absent a change of legislation, this allocation of funds will remain unchanged.

Because the three central Maryland casinos have the potential to cannibalize users from one another, the public revenues from all three casinos are pooled. This reduces the risk of a future decrease in revenue due to competition among casinos.

The Partnership’s initial projections for fiscal year 2020 Local Impact Grant revenues suggested that the Partnership would receive $6.3 million, and this number formed the basis for the Partnership’s original budget. However, due to the onset of the COVID-19 pandemic, temporary closure of the Maryland casinos and interruption of funding, the Partnership revised its fiscal year 2020 revenues projection and budget to $5.0 million, and the Partnership’s actual operating revenue for fiscal year 2020 was $5.2 million.

The Partnership has budgeted for Local Impact Grant revenue of $5.0 million for fiscal year 2021 based on projections for fiscal year 2021 and actual fiscal year 2020 Local Impact Grant revenues. While the fiscal year 2021 budget is more conservative than those for prior years, the precise impact of the COVID-19 pandemic on Local Impact Grant revenue remains to be seen. The Partnership’s Board anticipates revising the fiscal year 2021 budget in response to this changing situation as it evolves. In the interim, the Partnership’s Board will continue to follow a more conservative financial plan, which is monitored monthly.

 **Fund Balance, End of Year** $ 10,710,494

The accompanying notes are an integral part of this financial statement.
1. ORGANIZATION

Authorizing Legislation

The South Baltimore Gateway Partnership (the Partnership) was established by law on September 12, 2016 as the South Baltimore Gateway Community Impact District Management Authority and is codified in the Baltimore City Code, Article 14 Section 19-4. Though neither an agency of city nor state government, the Authority is established as a governmental body to the greatest extent allowable by law. The Partnership implements the South Baltimore Gateway Master Plan, and under the Partnership’s current strategic plan its main areas of focus are community development and revitalization, environmental sustainability, and health and wellness. The Partnership is funded by the Local Impact Grants generated by the three casinos in central Maryland: Horseshoe Casino, Maryland Live, and MGM Grand National Harbor. Under state law, not less than 50% of the Local Impact Grants that had previously been designated for the City of Baltimore has been reallocated for direct use by the Partnership.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting and Measurement Focus

The Partnership’s activities are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual (that is when they become both measurable and available). “Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period, considered by the Partnership to be one year. Expenditures are recorded when the related liabilities are incurred. The Partnership’s financial statements are presented on a modified accrual basis, which is essentially the same as the full accrual basis; therefore, separate entity-wide statements are not presented.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingencies as of the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.
2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Revenue and Expenses

Revenue consists of intergovernmental revenue from the State of Maryland and interest earned on the value of the Partnership’s deposit accounts. The Partnership also received some pass-through funding from the City of Baltimore in fiscal year 2020. Expenditures consist of program and administrative expenses.

Fund Balance

In the fund financial statements, fund balances are classified in the following categories:

Committed
This category includes amounts constrained for a specific purpose by the Board using its highest level of decision-making authority, prior to year-end. As of June 30, 2020, the Partnership had $900,000 as committed to serve as emergency reserves for future years to protect against potential funding fluctuations.

Assigned
This category includes amounts constrained by the intent to be used for a specific purpose by the Partnership. As of June 30, 2020, the Partnership had $9,822,683, as assigned for the Partnership’s commitments to program work, including projects underway and in development, and future overhead and indirect program expenses.

Unassigned
This category includes amounts not constrained by the Partnership prior to year-end. As of June 30, 2020, the Partnership had $0 as unassigned as a result of the Partnership having a plan for the use of all available funds.

3. CASH DEPOSITS WITH FINANCIAL INSTITUTIONS

Custodial credit risk-deposits
In the case of deposits, this is the risk that in the event of a bank failure, the Partnership’s deposits may not be recoverable. As of June 30, 2020, the carrying amount of the Partnership’s deposits was $10,957,837 and the bank balance was $10,960,303.
4. RECEIVABLES

Receivable represents amounts due from vendors. As of June 30, 2020, $15,600 remained due. This amount was collected subsequent to year end.

5. DUE FROM THE STATE

Due from the State represents the amount of intergovernmental revenue held by the State that has not yet been remitted to the Partnership. As of June 30, 2020, $121,686 remained due from the State. This amount was collected subsequent to year end.
