10-30-2026

Legal Note

By law, the South Baltimore Gateway Partnership is not an agency of the City of Baltimore or the State of Maryland. Similarly, by law, South Baltimore Gateway Partnership employees and officers are neither officers nor agents of the City or State.

The South Baltimore Gateway Partnership voluntarily reports on its activities so that members of the general public, including elected and public officials, community leaders and other partners, can learn about its work. While the South Baltimore Gateway Partnership complies in full with all statutory obligations, neither this report nor others like it were prepared in response to any statutory reporting requirement. Nor were these reports created for the purpose of requesting review or approval from any public body, agency, department, board, officer, or official. Any distribution of these reports to any public body, agency, department, board, officer, or official via an established formal submission protocol is done merely for convenience and not as an express or implied request for approval or review.

I. Executive Summary

The South Baltimore Gateway Partnership (“SBGP”) prepares these quarterly reports to maintain high standards for accountability and transparency.

During the last quarter, SBGP continued to strengthen its organizational capacity, to support its growing portfolio of community investments, restoration initiatives, and public space projects. SBGP launched recruitment efforts for three key leadership positions: Senior Project Manager - Public Spaces & Parks, Senior Grants & Contracts Manager, and Senior Project Manager - Public Spaces & Waterfront. These positions will expand SBGP's capacity to manage complex capital projects, oversee grants and contract administration, advance community-centered public space improvements, and support more than \$80 million in restoration and transformational projects throughout South Baltimore. Applications are being accepted on a rolling basis as SBGP continues to build the internal expertise needed to advance its mission and long-term strategic goals.

SBGP continued advancing plans for its 10th Anniversary Celebration in Fall 2026, using this milestone as an opportunity to celebrate a decade of impact, elevate the organization's visibility and cultivate new philanthropic support. Working in partnership with Phoenix Lifestyle Marketing Group, SBGP continued implementation of the anniversary campaign, including branding, marketing, fundraising, sponsorship outreach, and event planning activities. SBGP publicly launched anniversary celebration efforts through the SoWeBo Gateway 5K, a partnership with the Southwest Sports and Fitness Alliance (SSFA). The event not only celebrated SBGP's 10-year anniversary but also Southwest Sports and Fitness Alliance's 15th anniversary and recognizing mutual longstanding commitment to youth sports, fitness, and community wellness in South Baltimore. The race showcased new recreation assets, shoreline restoration projects, waterfront access improvements, and trail connections that reflect ongoing progress across South Baltimore.

On October 7, 2026, SBGP hosted MBRI: A Celebration of Progress, recognizing significant milestones in the Middle Branch Resiliency Initiative (MBRI). The event celebrated the completion of the MedStar Harbor Hospital Wetlands, Hanover Street Wetlands, and Patapsco Delta East restoration projects, while marking the launch of construction on the Smith Cove Project. Together, these investments represent major progress toward restoring and reconnecting Baltimore's Middle Branch shoreline, improving environmental resiliency, expanding public access, and advancing the long-term vision of the Reimagine Middle Branch initiative. The event provided an opportunity to recognize the community stakeholders, funders, partners, and elected officials whose support has made these accomplishments possible, while building momentum and excitement for the next phase of MBRI, including the Smith Cove project and future shoreline restoration efforts.

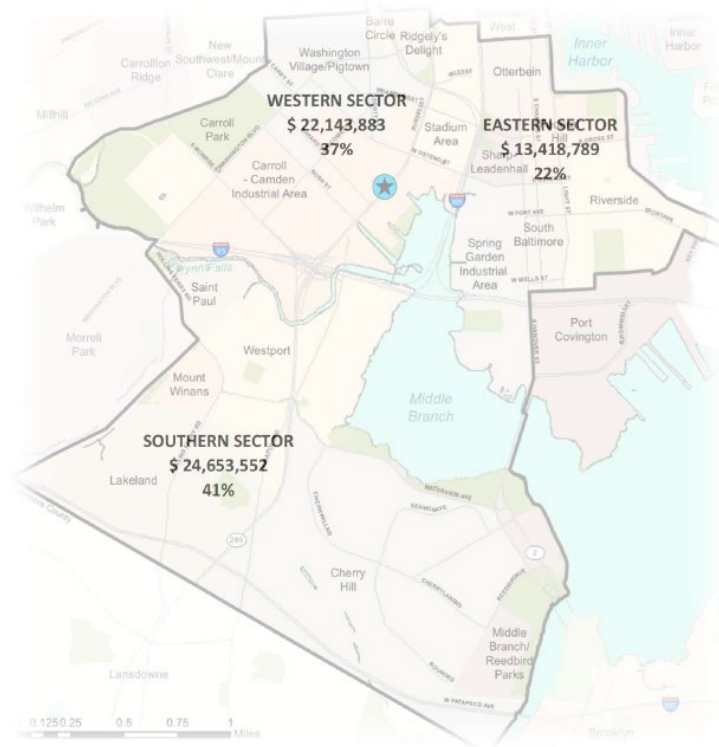

During this quarter, SBGP launched the Keys to Capacity (K2C) Fundraising Series in partnership with Business Volunteers Maryland (BVM), a capacity-building initiative designed to strengthen fundraising and organizational sustainability among SBGP grantees and community partners. The series officially kicked off on October 8, 2026 with the workshop, Individual Giving: Getting Started, which provided nonprofit leaders, development staff, and board members with practical tools and strategies to build and strengthen individual giving programs. Through the K2C initiative, participants also gain access to BVM's network of skilled business volunteers who provide mentoring, coaching, consulting, and technical expertise to help organizations address operational challenges and enhance long-term sustainability. Upcoming fundraising workshops include Individual Giving: Retaining Donors (October 29, 2026), Membership Programs and Monthly Giving (November 19, 2026), Fundraising in a Small Shop (December 10, 2026), Fundraising: Planning Ahead (February 4, 2027), Securing Corporate Sponsorships (February 25, 2027), Securing Grants (March 18, 2027), and Engaging Volunteers in Fundraising (April 8, 2027). Registration information for all sessions is available at: <https://sbgpartnership.org/workshops/>

SBGP continued to actively diversify its revenue streams this quarter. SBGP plans to take additional steps in the coming quarters to further establish the South Baltimore Gateway Foundation, a new affiliated nonprofit organization designed to serve as a fundraising vehicle. Back when SBGP was originally founded, it was anticipated that the organization would eventually want to have an affiliated nonprofit organization to secure additional supplemental funds for the District beyond its core casino revenues. This is a common practice, and many district management authorities in Baltimore funded by public revenues also have affiliated nonprofits. The South Baltimore Gateway Foundation is anticipated to receive most of the donations generated by the SBGP 10th anniversary, both in the short term and in the medium term through the cultivation of future donors.

During this first quarter, SBGP continued the development phase for its comprehensive website redevelopment project with an expected launch of a new website in January 2027. SBGP also continued with the implementation of its comprehensive technology roadmap for strategic improvements to its technology systems to better support organizational growth and operations. SBGP recently implemented a new CRM (Customer Relations Management) software that was used to manage the Community Grant program application process for the summer cycle and is preparing for additional integrations across organization-wide systems.

Throughout this quarter, SBGP's priority has remained to expend funds according to its financial plans and invest in its communities in a way that is strategic, disciplined, equitable, and well-documented. To date, SBGP has committed approximately \$57.6 million of core intergovernmental Local Impact Grant funds to projects across the District, ranging from small community grants to large capital projects. An additional \$1.6 million of projects were in development for a total mobilization of approximately \$59.2 million. Reflecting SBGP's commitment to an equitable model of investing, approximately 78 percent of core program funding to date has been invested in low-income communities and communities of color within the District.

**SBGP Core Projects Encumbered To Date, By Sector
as of 9/30/2026**

SBGP is pleased to share its progress and report on its activity during the first quarter of Fiscal Year 2027.

II. Background and Governance

Although SBGP is not required by law to produce reports of its activities, it is nonetheless committed to maintaining the highest standards of transparency and accountability. As a result, SBGP has elected to produce quarterly reports detailing its work and make those reports publicly available. This quarterly report also serves as an update on the FY27 SBGP Financial Plan.

A. Background

SBGP was established in 2016 to help implement the South Baltimore Gateway Master Plan, a sweeping plan to improve neighborhoods near the Horseshoe Casino Baltimore, with funding provided by the Local Impact Grants generated by video lottery terminals. Under its Strategic Plan, SBGP works to improve the vitality of its communities by focusing on three crucial elements of the South Baltimore Gateway Master Plan: Community Development and Revitalization, Environmental Sustainability, and Health and Wellness. To achieve the agenda laid out in the

Strategic Plan, SBGP has established three interrelated program areas: Community Grants, Enhanced Services, and Transformational Projects.

Additional background information can be found on the [SBGP website](#) and in SBGP's prior [quarterly reports](#).

B. Governance

SBGP is governed by a Board of Directors composed primarily of residents and business representatives from across the District, follows a well-conceived strategic plan, and works within an annual budget.

The SBGP Board of Directors meets at least six times each calendar year. During last quarter, the Board held three meetings on July 15, August 19, and September 16, 2026. In addition to regular board meetings, the Executive, Finance, Program, Communications, Governance and Nominating, and Strategic Planning Committees continued to meet as needed and report to the full Board.

During the last quarter, SBGP worked on an additional step to continue to improve its governance structures and procedures to ensure transparency, accountability, and ethical integrity. SBGP opened a Board of Directors nomination and review process to fill one open board seat. The process is designed to ensure the SBGP Board of Directors continues to reflect the 17 SBGP' neighborhoods served and has the leadership needed to guide the organization. SBGP received 6 Board applications by the 8/14/2026 submission deadline. Following the application review period, the public comment period for Board applicants remained open through 9/1/2026 and has since closed. The application review team began the review process during the last quarter (Board members were invited and encouraged to volunteer to help) and was very impressed with both the quantity and quality of applicants. The six applications were reviewed compared to the established criteria and Board composition requirements. Five of the six applicants were invited for interviews scheduled in October 2026. One applicant will then be nominated for appointment to and by the SBGP Board at its October 21, 2026, meeting. A current list of SBGP Board members can always be found at <https://sbgpartnership.org/about/#board>.

In addition to these governance efforts, SBGP Board authorized an additional \$2.5 million of Transformational Projects funding for Reimagine Middle Branch implementation. The Reimagine Middle Branch (RMB) initiative is transforming the Middle Branch from Baltimore's forgotten waterfront into Baltimore's next great waterfront, with 11+ miles of parks, trails and equitable development projects. RMB is a community-driven initiative led by the City of Baltimore, South Baltimore Gateway Partnership and Parks & People, working alongside a team of expert consultants, stakeholders and Baltimoreans. The SBGP Board authorized an additional \$2.5 million in Transformational Projects funding for Phase II of Carroll Park Rising, providing additional resources to support the project's next phase. To further support ongoing governance and oversight, the SBGP Board authorized a rollover

spending plan for excess FY26 funds and approved a updated signing authority resolution.

III. Program Activity

SBCP continues to work hard to improve the neighborhoods in the District. Under the SBCP Strategic Plan, SBCP tackles this work in three ways: awarding Community Grants that directly empower communities and causes in the District, providing Enhanced Services that improve quality of life in the community, and championing major Transformational Projects to dramatically improve the District as a whole.

When SBCP was first established and started publishing these reports, they were the primary means by which SBCP's program work was communicated. Several years later, SBCP has a comprehensive communications and outreach strategy. Sharing updates on SBCP's program work through these quarterly reports has therefore become duplicative. Furthermore, these reports are published 30 days after the quarter end, and so some of the events reported took place up to four months ago. To stay up to date on SBCP's current work, visit the [SBCP website](#); follow SBCP on [Facebook](#), [X](#), [Instagram](#), and [LinkedIn](#); and sign up for the [SBCP mailing list](#). In particular, see [Community Currents](#), SBCP's quarterly newsletter highlighting work across the District during the previous quarter.

In addition, see the 'Program Activity Map' and 'Summary of Projects' exhibits for a map, list, and details of SBCP-funded projects. Additional project details, including updates on specific projects, are available upon request.

IV. Administrative Activity

A. Human Resources and Administration

During the last quarter, SBCP continued planning for future organizational needs and structure consistent with its financial plans. To support the organization's growing portfolio of capital, restoration, and community investment projects, SBCP launched recruitment efforts for three strategic positions: Senior Project Manager - Public Spaces & Parks, Senior Grants & Contracts Manager, and Senior Project Manager - Public Spaces & Waterfront. These positions will strengthen SBCP's capacity to manage complex capital projects, oversee grants and contract administration, advance community-centered public space improvements, and support the implementation of restoration projects throughout South Baltimore. Applications are being accepted on a rolling basis as SBCP continues to build the internal expertise necessary to support organizational growth and project delivery.

SBCP also continued planning for a celebration of its 10th anniversary in Fall 2026, with the goal of using this time not just to take stock of the District's many accomplishments but also to raise funds and build its visibility with future potential donors. To commemorate this milestone, SBCP issued an RFQ and selected and

engaged Phoenix Lifestyle Marketing Group, a consulting firm with expertise in graphic design, marketing, and event planning, to lead the development and execution of a comprehensive anniversary campaign. During the quarter, SBGP continued implementation of the anniversary campaign, including branding, marketing, sponsorship outreach, fundraising strategy, and event planning activities. SBGP's 10th anniversary campaign will honor SBGP's legacy, elevate its brand, and engage residents, stakeholders, and partners through a coordinated mix of visual storytelling, strategic communications, and celebratory events. Phoenix Lifestyle Marketing Group will collaborate with SBGP staff and community partners to create a compelling visual identity, produce engaging content across multiple platforms, and design and implement events that reflect the values and impact of SBGP's work. These events will serve as key touchpoints to celebrate SBGP's achievements, amplify community voices, and foster deeper connections across the 17 neighborhoods in the SBGP District.

SBGP also continued with the development phase for its comprehensive website redevelopment project to replace its current site with a new website with accessibility integration. During the last quarter, SBGP kicked off the development phase of the project upon completion of the design phase.

In addition, SBGP continued with the implementation phase of its comprehensive technology roadmap informing strategic investments in its technology infrastructure. The project is intended to transition SBGP to new technology tools and solutions to support its evolving business operations and processes. By integrating technology with well-defined processes, SBGP will be better positioned to serve the community effectively while also building a system that can adapt and grow alongside the organization's needs.

B. Finance

1. Fiscal Management and Procedures

During the last quarter, SBGP continued reviewing its financial position, financial activity, and related procedures with its Finance Committee and Board of Directors. This includes quarterly reviews of the performance of its investment in a very low risk passive ultra-short U.S. Treasury strategy.

SBGP also continued tracking the potential impact of federal uncertainty and economic forecasts. During the last quarter, SBGP continued exploring strategies for managing uncertainty related to federal funding as well as strategies for mitigating and managing risk and developing new funding streams.

SBGP continued diversifying its revenue streams and the process of establishing an affiliated 501(c)(3) nonprofit organization, the South Baltimore Gateway Foundation, as anticipated by its establishing ordinance and documents to serve as a fundraising vehicle. Staff are now continuing work exploring the staffing, governance, accounting, insurance, and operating costs of the 501(c)(3) organization and

anticipate taking additional steps to further establish the organization in the coming quarters. Back when SBGP was originally founded, it was anticipated that the organization would eventually want to have an affiliated nonprofit organization to secure additional supplemental funds for the District beyond its core casino revenues. This is a common practice, and many district management authorities in Baltimore funded by public revenues also have affiliated nonprofits. The South Baltimore Gateway Foundation is anticipated to receive most of the donations generated by the SBGP 10th anniversary, both in the short term and in the medium term through the cultivation of future donors.

2. FY26 Financial Audit and Single Audit

By law, SBGP is required to conduct an annual financial audit. Since SBGP expended \$1,000,000 or more in federal award funds during FY26, it was also required to conduct a Single Audit. Therefore, SBGP engaged SB & Company, LLC, a City-certified MBE accounting firm with significant government and nonprofit audit experience, to provide independent audit services for fiscal year 2026. The financial audit and Single Audit for FY26 were completed during the last quarter, and the independent auditors issued an unmodified (clean) audit opinion on the financial statements, did not discover any instances of fraud or material weakness in internal controls, received full cooperation from management, and assessed the control environment to be effective in all areas. Moreover, the audit confirmed that SBGP has continued to mobilize its program funding efficiently and effectively.

As of the quarter end, the financial audit report was in the process of being finalized; it will be issued during the upcoming quarter. The Single Audit for FY26 cannot be issued until the U.S. Office of Management and Budget (OMB) issues the 2026 Compliance Supplement for single audits, an annual guide the OMB publishes to help auditors and auditees understand the compliance requirements for federal programs. The independent auditors are prepared to issue the Single Audit for FY26 as soon as the 2026 Compliance Supplement is published.

3. Update on the FY27 Financial Plan

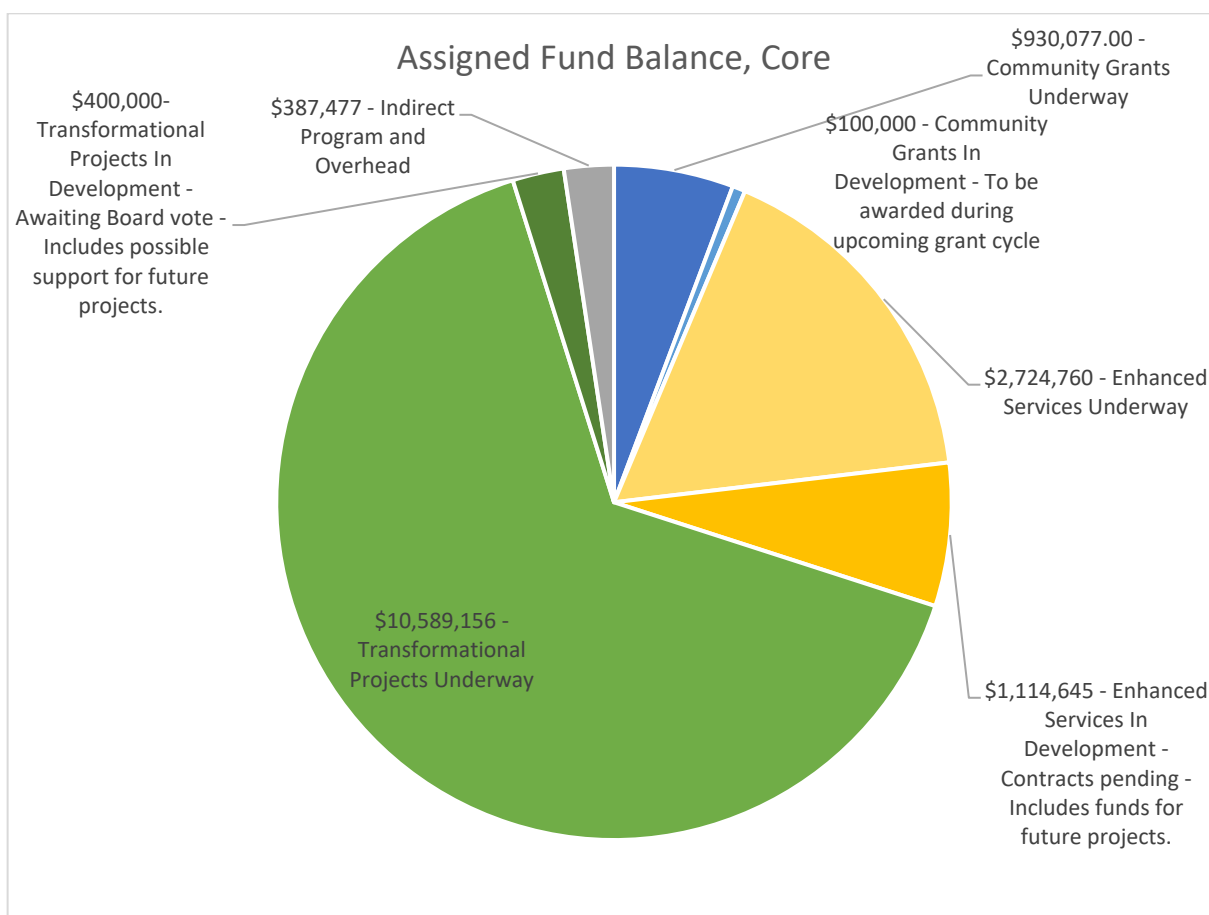

The FY27 budgeted core revenues are generally aligned with projected revenue levels. As with prior years, SBGP staff, the Finance Committee, and the Board will continue to monitor financial performance on a monthly basis and consider any budget revisions as needed.

Expenses were technically over budget, but this is actually a very good thing because it is evidence that some of SBGP's multi-year projects are progressing and coming to completion. Expenses outpaced budget, not because SBGP spent beyond its means, but because it utilized previously carried-forward funds and funds budgeted for FY27 as well as funds rolled over from previous years.

Since many projects take a year or more to complete, not all funds assigned in a given fiscal year will be spent within that year. Supplemental passthrough support was under budget; however, related expenses remained aligned with revenues received, and no expenses were incurred beyond available funding. SBGP therefore

did not commit or spend more FY27 funds than budgeted and planned and remains committed to expending funds according to its financial plans and investing in its communities.

As of September 30, 2026, SBGP had \$16,246,114 assigned/encumbered for projects underway and in development and other future expenses, and no unassigned fund balance. Total Assets do not yet include \$36,344,729 of supplemental grant funding. These funds will be recorded as receivables and revenue once the conditions of the grants are satisfied or as expenditures are incurred. For more details, see the 'Assigned Fund Balance' chart/s below.

As previously explained, many projects take a year or more to complete. For example, Community Grants generally take a year or more for grantees to execute, as do large Enhanced Services capital projects. Similarly, large investments in complex Transformational Projects take long periods of time and fiduciary analysis to responsibly prepare and execute. As a result, not all funds assigned in a given fiscal year will be spent within that year, and SBGP expects to maintain a significant fund balance for the foreseeable future.

SBGP therefore undertook a review of its cash management strategy and invested in a very low risk passive ultra-short U.S. Treasury strategy. It is worth noting that

investments are stated at fair market value, which will fluctuate monthly due to market activity. In addition, although the investments themselves are very low risk, periodic losses may need to be reported from time to time due to the timing of SBGP's investment, buying into the coupon rate, and market volatility. However, since SBGP plans to hold the investments to maturity, SBGP has every reason to expect a positive rate of return.

See the 'Update on the FY27 Financial Plan' exhibit for the financial statements for SBGP as of and for the month and three months ended September 30, 2026.

C. Compliance and Evaluation

1. Procurement, Impact Investments, and MBE/WBE Participation

SBGP remains committed to directing its funding towards MBE/WBE firms, local businesses, non-profits, and other Impact Investments consistent with its mission and procurement policy and tracks those Impact Investments on a quarterly basis. Although most of the information is provided on a voluntary basis, Impact Investments do not include those paid by credit card, and SBGP continues collecting data on new and existing vendors, the report shows that SBGP is making serious efforts to direct its funding towards local businesses, non-profits, and other Impact Investments. Of \$6.0 million in expenditures in FY27 to date, approximately 92 percent constitute Impact Investments of one form or another. Approximately 92 percent of these Impact Investments went to nonprofit vendors, 8 percent went to city-based vendors, 80 percent went to other impact investments such as small businesses and 8 percent went to City-certified minority and women business enterprises. (Impact Investments in MBE/WBEs include SBGP's overhead expenses only. Impact Investments in MBE/WBEs for projects are made by SBGP's prime contractors and grantees and therefore tracked individually and not included in these figures.)

SBGP's FY27 organizational overhead budget was submitted to the Minority and Women's Business Opportunity Office (MWBOO) in August 2026 for the purposes of calculating the organization's MBE/WBE participation goals for its overhead expenses. SBGP is proceeding with the budget and proposed MBE/WBE goals in good faith since it did not formally receive goals or other guidance from the MWBOO and the fiscal year is underway.

SBGP also continues to submit its program project budgets that are \$50,000 and greater to the MWBOO for determination of individual project MBE/WBE participation goals. For any projects with MBE/WBE goals, SBGP also continues documenting intent to comply and then compliance with those goals before closing out projects.

(It is worth noting that the two master funding agreements between SBGP and BCRP for Enhanced Services clarify the MBE/WBE compliance responsibilities for the two parties. The City assumed primary compliance obligations for any expenditures

where SBGP reimburses BCRP for its projects, as well as in situations where BCRP directs SBGP to make specific expenditures on its behalf. However, at the MWBOO's request, SBGP continues submitting budgets for those projects that are \$50,000 and greater for the determination of MBE/WBE goals.)

SBGP provides proposed goals and deadlines for responses to the MWBOO. While the MWBOO occasionally provides goals or acknowledges SBGP's correspondence and submissions, it has not been providing consistent responses or guidance. SBGP has therefore been proceeding with projects as proposed in its MWBOO submissions in good faith. SBGP continues to seek communication and guidance from the MWBOO regarding the submission and response process and timeline as well as how best to avoid interrupting projects underway. SBGP remains committed to working with both the project managers/service providers and the MWBOO to keep projects moving forward and also satisfy any goals and resolve any issues as necessary as MWBOO responses for those projects are received.

See the 'Impact Investments Report' exhibit for more information.

2. Program Tracking and Evaluation

The SBGP Strategic Plan calls for SBGP to significantly improve the vitality of the South Baltimore Gateway neighborhoods for all residents. In order to hold SBGP to this high standard, SBGP tracks and evaluates program activity.

See the 'Program Activity Map' and 'Summary of Projects' exhibits for a map, list, and details of SBGP-funded projects. Additional project details, including updates on specific projects, are available upon request.

Total Fund Balance	<u>18,354,315</u>
Total Liabilities and Fund Balance	<u>\$ 21,798,752</u>

Footnotes:

1. Due from State for September 2026 revenue.

2. Total Assets of \$21,798,752 includes an Intergovernmental Revenue Receivable of \$681,942 and Investments of \$8,666,526. \$16,246,114 of Total Assets is assigned/encumbered for Community Grants, Enhanced Services, Transformational Projects, and Indirect Program and Overhead, \$408,201 is restricted for Endowment Funds, and \$1,700,000 is committed by the Board to serve as emergency reserves. Total Assets do not include \$36,344,729 of supplemental grant funding. These funds will be recorded as receivables and revenue once the conditions of the grants are satisfied or as expenditures are incurred.

3. Committed fund balance includes \$1,700,000 that serves as an emergency reserve. SBGP has increased its target reserve to approximately \$2.1 million, which would cover core overhead and program expenses for approximately three months. SBGP will reserve approximately \$200,000 per year starting in FY 2027 until the target reserve has been met as long as the organization has the funds to do so while maintaining a healthy financial position. It is estimated to take SBGP until at least FY 2029 to reach the increased target reserve.

4. Assigned fund balance includes \$16,246,114 for work funded with core casino Local Impact Grants. Funds budgeted for Community Grants, Enhanced Services, and Transformational Projects are encumbered for projects in development. Those funds are then encumbered for specific Community Grants and Transformational Projects following Board approval, and for specific Enhanced Services once a contract is executed for those services. Encumbrances include Transformational Projects totaling \$10,598,906; \$400,000 for Transformational Projects in development; Enhanced Services totaling \$2,724,760; \$1,104,895 for Enhanced Services in development; Community Grants totaling \$930,077; \$100,000 for Community Grants in development; and \$387,477 for overhead expenses. For more details, see the 'Assigned Fund Balance' chart/s included with these reports.

5. Unassigned fund balance includes amounts not yet committed, restricted or encumbered/assigned.

6. SBGP is invested in a low risk, passive ultra-short U.S. Treasury strategy. Investments are stated at fair market value. Fair market value of the portfolio will fluctuate monthly due to market activity, however, since SBGP plans to hold the investments to maturity, SBGP has every reason to expect a positive rate of return.

7. Due for supplemental grants and other miscellaneous receivables.

8. Includes endowment funds for the long-term maintenance of wetlands.

9. SBGP funds in its South Baltimore Gateway Partnership Fund with the Baltimore Community Foundation. For Managerial and tracking purposes we are including these funds in this report, however, they will not appear on the audited statements due to GAAP reporting guidelines.

10. Grant funds received on an advance basis will be recognized as revenue once the actual expenses are incurred.

11. SBGP has capitalized the external consulting costs associated with the development of its website and CRM. These costs are amortized over the useful life of these intangible assets.

12. Catastrophic Event Assurance Warranty (CEAW) account to cover repair or close-out costs for defined assurance purposes for Middle Branch Resiliency Initiative (MBRI) project sites. Funds remaining after close-out remain restricted and designated for long-term management and stewardship of MBRI sites. Funds are invested in a low risk, passive ultra-short U.S. Treasury strategy. Investments are stated at fair market value. Fair market value of the portfolio will fluctuate monthly due to market activity, however, since SBGP plans to hold the investments to maturity, SBGP has every reason to expect a positive rate of return.

13. Baltimore Vacants Reinvestment Initiative (BVRI) award from the Maryland Community Investment Corporation (MCIC). The award is structured as a forgivable loan and will remain a liability until the project milestones are completed and the loan is officially forgiven.

No attest assurance is provided.

Footnotes:

- Includes interest earned on SBGP deposits.
- Community Grants include expenses related to grants underway that were encumbered in the current fiscal year as well as previous fiscal years. Funds budgeted for Community Grants are encumbered for projects in development. Those funds are then encumbered for specific Community Grants following Board approval of funding awards, and then expensed when grant draw/payment requests are received and payable. See Quarterly Report for additional detail.
- Enhanced Services include expenses related to projects underway that were encumbered in the current fiscal year as well as previous fiscal years. Funds budgeted for Enhanced Services are encumbered for projects in development. Those funds are then encumbered for specific Enhanced Services once a contract is executed for those services and then expensed when payment requests are received and payable. See Quarterly Report for additional detail.
- Transformational Projects include expenses related to projects underway that were encumbered in the current fiscal year as well as previous fiscal years. Funds budgeted for Transformational Projects are encumbered for projects in development. Those funds are then encumbered for specific Transformational Projects following Board approval and then expensed when payment requests are received and payable. See Quarterly Report for additional detail.
- Includes salaries and benefits for program employees.
- Includes miscellaneous indirect program expenses, including funds for a technical assistance program for grantees, and part time consultant services for Transformational Projects.
- Includes HR consultant services and website redevelopment.
- Fees for third-party accounting services. The contract with C.E.A. Scholtes & Associates includes hourly rates.
- For audit services.
- Includes annual premiums for commercial insurance policies.
- SBGP has a lease on private offices in a co-working space.
- Includes salaries and benefits for operations employees including PTO accrued for the fiscal year.
- Includes web development/maintenance, IT support, and software licensing.
- Includes reimbursements for staff use of personal phones.
- \$1,700,000 is committed/restricted by the Board to serve as emergency reserves for future years to protect against potential funding fluctuations. SBGP has increased its target reserve to approximately \$2.1 million, which would cover core overhead and program expenses for approximately three months. SBGP will reserve approximately \$200,000 per year starting in FY 2027 until the target reserve has been met as long as the organization has the funds to do so while maintaining a healthy financial position. It is estimated to take SBGP until at least FY 2029 to reach the increased target reserve. The remaining fund balance is committed/restricted by the Board to serve as endowment funds for the long-term maintenance of wetlands and assigned for projects underway, projects in development, and other budgeted expenses.
- YTD amount includes \$-37k of unrealized gains/losses and \$31k in interest on SBGP's investment in a low risk, passive ultra-short U.S. Treasury strategy. Periodic losses may occur due to the timing of SBGP's investment, buying into the coupon rate and market activity. However, since SBGP plans to hold the investments to maturity, SBGP has every reason to expect a positive rate of return.
- Grant administration fees from supplemental grants.
- Discretionary insurance fund for limited-capacity partners to purchase private insurance in accordance with SBGP grant agreement/contracting requirements.
- Grant funding from the Maryland Department of Housing and Community Development (MD DHCD) Baltimore Regional Neighborhood Initiative (BRNI) program for the MedStar Harbor Hospital Shoreline and Westport Waterfront Park.
- Grant funding from the National Oceanic and Atmospheric Administration (NOAA) for the Patapsco Delta Sustainable Fishery and Ecosystem Resilience Project.
- Includes endowment funds for the long-term maintenance of wetlands.
- Grant funding from the National Fish and Wildlife Foundation (NFWF) for the restoration of the Hanover Street Wetlands and Smith Cove Wetlands.
- Includes promotional materials, conferences and events, other.
- Any expenses paid with supplemental revenues will not be incurred if those revenues are not received. If supplemental revenues are received, the corresponding expenses will shift from core expenses to supplemental expenses and make additional core revenues available for direct program expenses.
- Includes 501(c)(3) setup costs.
- SBGP has capitalized the external consulting costs associated with the development of its website and CRM. These costs are amortized over the useful life of these intangible assets.
- Consulting, promotional materials, events, other expenses related to 10th anniversary fundraising campaign.

No attest assurance is provided.

B. Impact Investments Report

SBGP is committed to seeking out Impact Investments, including those that support minority- and women-owned businesses, local businesses, and non-profits consistent with its mission. Wherever feasible, SBGP will use these Impact Investments to further its mission by supporting local and minority- and women-owned businesses, associated hiring opportunities, community-driven social impact, and our local economy. Each of SBGP's contractual relationships is designed to expand its network and ability to access a strong pool of diverse vendors to meet SBGP's needs.

* Impact Investment classification information is provided on a voluntary basis, and Impact Investments do not include those paid by credit card; SBGP's actual Impact Investments may therefore be higher than indicated on this report.

**Impact Investments in MBE/WBEs includes SBGP's overhead expenses only. Impact Investments in MBE/WBEs for projects are made by SBGP's prime contractors and grantees and therefore tracked individually and not included in this report. MBE/WBEs also do not include 501(c)(3) Nonprofit Organizations, since they do not have owners; Impact Investments in 501(c)(3) Nonprofit Organizations are tracked separately.
